AGENCY: Department of Transportation. Engineering & Operations. Operations. Traffic & Safety

SERIES: 10385

3

TITLE: Accident collision diagrams

DATES: 1970-

ARRANGEMENT: Numerical by location

ANNUAL ACCUMULATION: 2.00 cubic feet.

DESCRIPTION:

These records are created by the Traffic and Safety division to evaluate intersection design and determine if a signal should be installed. Included are diagrams of accidents occurring at specific intersections during a one year period of time. The information includes street location, year, number of accidents, types of collisions (when they happened, what direction they were going, injuries, etc.) and a key to the symbols of the diagram.

RETENTION:

Retain for 7 year(s)

DISPOSITION:

Destroy.

RETENTION AND DISPOSITION AUTHORIZATION:

These records are in Archives' permanent custody.

APPROVED: 12/1993

FORMAT MANAGEMENT:

Paper: Retain in Office for 7 years and then destroy.

APPRAISAL:

These records have administrative value(s).

This disposition is based on the administrative needs expressed by the agency.

AGENCY: Department of Transportation. Engineering & Operations. Operations. Traffic & Safety

AGENCY: Department of Transportation. Engineering & Operations. Operations. Traffic & Safety

SERIES: 10386

3

TITLE: Accident record system

DATES: 1978-

ARRANGEMENT: None

DESCRIPTION:

This computer system is created and used by Traffic and Safety for analysis of traffic accident data. This information is reported to the Federal Highway Administration and others, such as emergency medical services, for statistics or counts involving accidents. The system facilitates changes to the roadway environment, signs, fixed objects, and banking. Initially, data comes from the Division of Financial Responsibility, within Public Safety. When the data is entered into the computer, paper copies are returned to Public Safety. Information includes the investigating officer's report of the traffic accident (with details about the vehicle and owner) and road conditions/environment at the time of the accident.

RETENTION:

Retain for 7 year(s)

DISPOSITION:

Destroy.

RETENTION AND DISPOSITION AUTHORIZATION:

These records are in Archives' permanent custody.

APPROVED: 12/1993

FORMAT MANAGEMENT:

Computer data files: Retain in Office for 7 years and then delete.

APPRAISAL:

These records have administrative, and/or fiscal value(s).

This disposition is based on the administrative needs expressed by the agency. The time period will also allow for audits.

3

TITLE: Annual reports

DATES: 1975-

ARRANGEMENT: Chronological

DESCRIPTION:

Any record, regardless of format, that is issued by a governmental entity for public distribution at the total or partial expense of that governmental entity. See Utah Code Section 9-7-101 8(a)(b) (2010) and 9-7-208 (2006)

RETENTION:

Permanent. Retain for 15 year(s)

DISPOSITION:

Transfer to Archives.

RETENTION AND DISPOSITION AUTHORIZATION:

These records are in Archives' permanent custody.

AUTHORIZED: 10-30-2018

FORMAT MANAGEMENT:

Paper: Retain in State Records Center for 15 years and then microfilm and transfer to State Archives with authority to weed.

Microfiche master: Retain in State Archives permanently with authority to weed.

Microfiche duplicate: Retain in State Archives permanently with authority to weed.

APPRAISAL:

These records have historical value(s).

Publications which document agency history and functions have ongoing research value.

3

TITLE: Project files

DATES: 1920-

ARRANGEMENT: Numerical by Project Identification Number (PIN).

DESCRIPTION:

These records support the agency's function to improve transportation safety in work zones, school zones, traffic intersections, and crosswalks statewide through the design and incorporation of traffic management systems (Utah Code 72-6-115(1)(b) (2012)). Records are used to document what was in place prior to construction, preparation undertaken for the project, and the final plan and specification for what was constructed. Records may include project plan sets, special provisions, environmental and archaeological clearances, and related correspondence. Includes an index.

RETENTION:

Permanent. Retain for 15 year(s)

DISPOSITION:

Transfer to Archives.

RETENTION AND DISPOSITION AUTHORIZATION:

Retention and disposition for this series is authorized by Archives general schedule Government construction as-built plans and specifications, GRS-1789.

AUTHORIZED: 11-08-2018

FORMAT MANAGEMENT:

Paper: Retain in Office for 1 year and then transfer to State Records Center. Retain in State Records Center for 14 years and then transfer to State Archives with authority to weed.

Computer data files: Retain in Office for 15 years and then transfer to State Archives with authority to weed.

APPRAISAL:

These records have administrative, and/or historical value(s).
These records document the agency's adherence to the mandate to prepare and adopt uniform standard plans and specifications for the construction and maintenance of state highways (Utah Code

AGENCY: Department of Transportation. Engineering & Operations. Operations. Traffic & Safety

SERIES: 28524

TITLE: Project files

(continued)

72-6-102 (1998)). These records show what was constructed and have situation sheets that describe what was in place prior to construction, which is important information to have in case of litigation and for historical research.
Federal Code 23 CFR 409 (2005) addresses the limitation on the use of these records for legal proceedings.

PRIMARY DESIGNATION:

Public

AGENCY: Department of Transportation. Engineering & Operations. Operations. Traffic & Safety

SERIES: 25632

3

TITLE: Railroad project files

DATES: 2003-

ARRANGEMENT: Alphabetical by project name, thereunder chronological by year.

ANNUAL ACCUMULATION: 0.50 cubic feet.

DESCRIPTION:

These records support the agency's function to regulate and promote safety at all locations in the state where public accesses and roads cross railroad tracks. Records document the construction, maintenance, and assessment of public roads that intersect with railroad lines. These records may include project plan sets, final environmental impact statements, memoranda, and related correspondence; does not include railroad inspection records.

RETENTION:

Permanent. Retain for 15 year(s) after end of project or program

DISPOSITION:

Transfer to Archives.

RETENTION AND DISPOSITION AUTHORIZATION:

Retention and disposition for this series is authorized by Archives general schedule Government construction as-built plans and specifications, GRS-1789.

AUTHORIZED: 11-08-2018

FORMAT MANAGEMENT:

Paper: Retain in Office for 5 years after project has been completed and then transfer to State Records Center. Retain in State Records Center for 10 years and then transfer to State Archives with authority to weed.

APPRAISAL:

These records have administrative, and/or historical value(s).
These records document construction projects conducted along Utah's many rail lines and have an enduring research value to the agency and to the public.
Federal Code 23 CFR 409 (2005) addresses the limitation on the use of these records for legal proceedings.

3

TITLE: Ski lift data sheets

DATES: 1994-

ARRANGEMENT: Alphabetical by ski area

ANNUAL ACCUMULATION: 0.10 cubic feet.

DESCRIPTION:

This computer-generated report documents ski lift equipment as it changes over time. The information is also used to identify all ski lifts in Utah using similar equipment in case mechanical failure in one could predict a similar failure elsewhere. Information includes ski area; lift name, type, year installed, manufacturer, code, and identification number; speed, spacing, capacity, and interval statistics; rope characteristics, tensile strength, and manufacturing information; gear box data; and service brake and drive sheave brake model information.

RETENTION:

Retain permanently

DISPOSITION:

May Transfer to Archives.

RETENTION AND DISPOSITION AUTHORIZATION:

Retention and disposition for this series were specifically approved by the State Records Committee.

APPROVED: 02/1998

FORMAT MANAGEMENT:

Computer data files: Retain in Office until updated and printed and then delete.

Paper: Retain in Office permanently.

APPRAISAL:

These records have administrative value(s).

This disposition is based on the administrative needs expressed by the agency.

3

TITLE: Track and equipment inspection reports

DATES: 1976-

ARRANGEMENT: Alphabetical by location

ANNUAL ACCUMULATION: 2.00 cubic feet.

DESCRIPTION:

These records are created by the railroad inspectors to document safety inspections on all railroad equipment and railroad tracks. Inspections are required by 49 CFR 206 (1990) and 49 CFR 225 (1990). The data is reported to the federal government and is used to determine fines and forfeitures. The information includes railroad equipment damage, track damage, safety violations, and name of railroad company.

RETENTION:

Retain for 3 year(s)

DISPOSITION:

3

TITLE: Traffic signal controller maintenance records

DATES: 1950-

ARRANGEMENT: Chronological

ANNUAL ACCUMULATION: 0.10 cubic feet.

DESCRIPTION:

These diaries are created by field personnel to track the operation of traffic signals for the lifetime of that equipment. The records are maintained at the site of the traffic signal. Information includes maintenance done on the intersection and personal judgment decisions (whether to put the signal on flash, etc.).

RETENTION:

Retain until disposition of asset

DISPOSITION:

Destroy.

RETENTION AND DISPOSITION AUTHORIZATION:

These records are in Archives' permanent custody.

TITLE: Traffic signal controller repair records

DATES: 1950-

ARRANGEMENT: Chronological

ANNUAL ACCUMULATION: 1.00 cubic foot.

DESCRIPTION:

These forms are created by the signal maintenance supervisor within the Traffic and Safety division. They list repairs made to malfunctioning signal controllers. They also document the technician's decision that the controller is suitable to be returned to service. Information includes a list of repairs completed on the equipment, location of equipment, and personal judgment decisions.

3

TITLE: Tramway licensing applications

DATES: 1987-

ARRANGEMENT: Alphabetical by ski area

ANNUAL ACCUMULATION: 1.00 cubic foot.

DESCRIPTION:

These records document the licensing and annual registration of ski lifts, in accordance with UCA 63-11-37(2)(a) (1997). Existing tramway applications identify the area name, owner, address, fees, summer usage, and attachments such as certificates of insurance, compliance, and inspections. Applications for new or modified tramways include the above plus tramway design certifications and plans (which are then separated and transferred to series 19412). Information includes pre-season and operational inspection reports from approved tramway inspectors, and copies of license certificates.

TITLE: Utah Passenger Tramway Safety Committee report of passenger tramway incidents

DATES: 1994-

ARRANGEMENT: Chronological, thereunder alphabetical by ski area name

ANNUAL ACCUMULATION: 0.10 cubic feet.

DESCRIPTION:

These incident reports and photographs identify incidents which have occurred and conditions in passenger tramways which could endanger the public. The information is used by the Utah Passenger Tramway Safety Committee to prevent incidents involving similar equipment. Under Utah Administrative Code R920-50-13-B (1997), tramway incidents are to be reported to the committee within 24 hours (verbally) and five days (written report). Information includes person to whom the incident was verbally reported and time it was reported, area name, date and time of incident, tramway name or number, description of incident, tramway component associated with the incident, action taken, injuries, evacuation details, and person reporting the incident.
