 ARRANGEMENT:
 Chronological, thereunder alphabetical by surname

 DESCRIPTION:
 Chronological, thereunder alphabetical by surname

These records are used for granting exemption of property taxes for disability, aged, veteran status or extreme hardship. The actual numbers and types of abatements vary according to size of the auditor's office. These files contain applications forms completed by taxpayers requesting tax exemption of property tax. Includes applicant's name, address, birth date, age, social security number; the property serial number; name of county; a series of questions concerning financial situations; numbers of acres; computation of household income; the signatures of applicant and applicant's spouse; all necessary supporting documentation; and action taken. Since abatement records are historically valuable, the retention of these records is dependent upon which records are created by the office.

#### **DESCRIPTION:**

These records document the county auditor's sale of property for delinquent taxes. Property which has been delinquent for five years may be sold at the annual May Tax Sale. Information includes name of person to whom property was assessed, legal description of property, date of sale, amounts of taxes and penalties attached, total amount due, and name of person to whom property was sold.

When originally created (1989), this series included reference to May tax sale information recorded in the tax assessment rolls, such as amounts of taxes due, penalties attached, names of persons to whom property was sold, and name and certificate number of redeemer if the property was redeemed. However, over time, as Davis County microfilmed permanent records, this series number, 84231, was used interchangeably with series 7137, which includes tax redemption certificates. For purposes of a historical record, May tax sales information is being preserved in redemption certificates (series 7137), in the county recorder?s official records (series 71810), and in May tax sale minutes.
